St. Mary's, ON

Building Size: 480 sq. ft.

Building Start: February 2005

Building Complete: February 2005

PROJECT PROFILE

INDUSTRIAL

Project Profile # 1043055

To conserve plant floor space the In-Plant Office was installed on a mezzanine.

PROJECT OVERVIEW:

Plant floor space is at a premium in this facility and when additional office space was required NRB provided the solution with our NCP Series In-Plant Office on a mezzanine. The In-Plant Office (20' x 24' feet), is engineered and manufactured to be elevated 9 feet above the plant floor on a NRB structural platform. The elevated position of this office, accessed by a steel stairway, provides supervisory personnel with a quiet, comfortable working environment and a great overview of plant operations. The floor space below can be used for storage or manufacturing operations.
