CANADIAN TIRE / KILMER FUELS

Trenton, ON

Building Size: 1,196 sq. ft.

Building Start: August 2010

Building Complete: October 2010

PROJECT PROFILE

Retail / Hospitality

Project Profile # 1104006

Multi new hwy site locations to be constructed in restricted timeframes and LEED silver design was a perfect application for NRB's off-site construction methodology.

PROJECT OVERVIEW:

Blending the best of form and function, this two piece building was designed for retail space efficiency while keeping the owner's image and brand identity at the forefront. This convenience store was part of a much larger service center site development along a major highway. The store was designed and has applied for LEED silver certification.

FEATURES & BENEFITS:

- Contributions to LEED silver include a white TPO roof to reduce heat island effect, low VOC paints, adhesives and sealants, recycled content in the steel and drywall and FSC certified lumber.
- NRB's build together process at the plant ensured the 2 piece building went back together quickly, efficiently and precisely on site.
- Flat architectural metal panels in the owner's corporate colors were pre-installed prior to shipping.
- Fully glazed store front allows viewing from both inside and out.
- Custom millwork and warm interiors make the store more inviting.
